

2022 at Hope on Horseback

A new year, and an exciting new schedule. Classes include a new format, allowing more flexibility to our riders and their families. We will offer seven Sessions in 2022. Each Session will run for five weeks instead of the traditional seven-week program. This will enable us to respond and adjust to the needs of each rider in a shorter time frame. And, we hope it will encourage more families to experience the benefits of our therapeutic riding services without the commitment of such a long period of time. Of course, we encourage riders to participate on a regular basis throughout the year to receive maximum benefits from the program. Here is the new schedule, along with new pricing. Please review the information on the other side of this schedule and call or email if you have questions or concerns.
