

Hope on Horseback

Hope on Horseback offers supervised activities using horses for physically and mentally challenged individuals, at-risk youth, cancer patients and trauma victims. Programs are available for veterans and first responders of all ages and branches of service.

Classes are designed to encourage personal, social and communication skills. In addition to learning to ride, participants learn to groom, tack and lead horses which builds confidence, self-esteem, and a strong sense of responsibility. Students learn team work and gain a sense of accomplishment, pride in work, and task completion. Utilizing the horse to provide gentle exercise has proven to be effective in building core muscle strength, balance and coordination as well.
